## Useful Hints for my digital Sheets

You receive my piano music here in the shop exclusively as a PDF file storable on every computer. You have received it as a download. The download passes of a so-called Zip-File where mostly several files are „packed“ in. You open it with a double click.

Then you see a file with the ending PDF - this is your music book. Now this contains not only your classical marks of the pieces but also useful tips to the pieces as for example links to my YouTube Channel where you can see and hear the Piece in a video or also a Tutorial-Video for perfect Control of your Efforts. You find these links on the first Page of the Score as a QR-Code. You also find links to my on-line

piano tutor like now here:

[www.dietmarsteinhauer.com](http://www.dietmarsteinhauer.com)

Here you have direct contact with me and also considers that all pieces of me in this school are to be found, with marks in different versions, fingerings, to Tutorials and many useful tips. According to my opinion the annual membership is to be got for 120€ is the best choice to start with your Piano Playing. Here you also find my Tutorials to many well known pieces for those who want to look on my Fingers and would like to read no marks.

I have from many years of lessons a really gigantic archive from Chart titles of the last decades.

If you liked to begin now with the play and print out the marks here

still the last tip: You must not print out the whole notebook, but select only the sides of the respective piece that you want to play. You find this in the window of the printing process, therefore, the pieces are also numbered in each case individually to be able to put them into archives better.

**And now I wish you a lot of fun with my piano music!**

You find more of my Music and Sheets in my Shop:
